APPENDIX 3: REGISTRAR OF COMPANIES AND OTHER AUTHORISED OFFICERS	37

INTRODUCTION

The Companies Registration Office (CRO) Mission Statement is:

to oversee the highest possible rate and quality of annual return filing on the part of companies in accordance with the relevant statutory provisions and to ensure that information on companies published in turn by the CRO accurately reflects the information provided by those companies.

At the end of 2011, there were some 185,000 companies in existence on the register resulting in over 380,000 submissions being filed with the CRO during 2011.

In June 2011, the 1,000,000th electronic form was lodged with the CRO. E-filing across all electronically available forms increased significantly in 2011 with 60% of all statutory forms now being transmitted online. E-filing reduces operation costs for business thereby improving the competitiveness of Irish business.

CRO delivered strongly on its mission in 2011, achieving a target by year-end of 87.9% of companies being up-to-date in terms of filing of annual returns. Income for the year amounted to €20.7m which was 2% higher than the figure of €20.25m received in 2010.

In 2011, CRO initiated a project to review all preliminary notifications of liquidation and receivership to the CRO, where these processes had not reached completion after a significant lapse of time. This resulted in 160 companies being struck off the companies' register and another 1,000 companies being brought up-to-date in terms of their filing status. It is hoped to continue this process in 2012.

Pages 2 to 9 of this report give a brief overview of the principal activities and functions of the CRO during the year 2011. A more detailed breakdown of the various activities and statistics is set out in the appendices that follow.

A number of projects conceived of during 2011 remain for implementation at the CRO during 2012. A pilot online replacement of the "CRODisk" A1 new company incorporation form was initiated in 2011 and it is intended to permanently replace the CRODisk facility with an online A1 through CORE in March 2012.

The CRO has already started preparations to implement a credit card payment system for filing submissions in 2012. This new payment system will best underpin electronic filing, signing and payment initiatives being developed by the CRO. The CRO will also give further consideration in 2012 to the potential for mandating the filing of certain forms in electronic format only and eliminating the need for paper filing in these cases.

CRO FUNCTIONS

New Company Incorporation

Continuing with the trend of last year, 2011 again saw an increase in the number of new companies incorporated over the previous year, with 14,615 new companies incorporated during the year. This was an average of over 1,200 new companies incorporated each month.

The three company incorporation schemes, as outlined below, were consistently delivered within our customer service targets and committed time frames during 2011:

Fe Phráinn – 10 working days

CRODisk – 5 working days

Ordinary Scheme –15 working days;

Business Names

The CRO is also responsible for the registration of business names under the Business Names Registration Act 1963. Processing times for Business Name applications have been reduced significantly since procedures were re-engineered in 2010. 66% of correctly completed applications are now registered and certificates issued within 10 working days and 90% are completed within 20 working days.

The number of new business names registered by the CRO in 2011 was 26,600, a decrease of 5% on 2010. About 81% of business name applications were filed electronically in 2011.

Information, Enquiries and Cash Office

The Information Unit provides a front line service to customers who contact the Office by telephone, fax, post and e-mail. The benefit for CRO customers is that it allows first call resolution to queries and eliminates the frustration of being transferred. The service in turn acts as a front line service for staff within the Office, thus enabling line sections to carry out their specific tasks uninterrupted, which in turn contributes to shorter processing times of documents filed.

The Information Unit answered over 73,000 calls during 2011, an average of just over 1,400 calls a week, with an average waiting time of one minute and two seconds per phone call.

Over 9,000 e-mails were answered during 2011 via CRO e-mail handling system at info@cro.ie, with 97% of these e-mails answered within eight working hours.

The Enquiries and Front Counter areas of the Unit continued to deal with personal callers to the CRO during the hours 9.30-16.30 throughout 2011. In addition to assisting personal callers with queries, the Unit manages requests for copies of submission filed by companies, the issuing of duplicate certificates and other matters such as letters of status.

During 2011 the Information Unit organised a number of in-house specialised staff training courses on topics such as “Principles of Company Law”, and “The Company Secretarial Workshop”. These courses were very well attended and received by staff and play an important part in the CRO's continued commitment to staff training and development.

The Information Unit also organises the CRO's participation at exhibitions, seminars and open days and during 2011 the Unit represented the CRO at a number of such events.

In 2011 the Cash Office took in and received a total of 91,455 documents from personal callers to the Office.

Income 2011

CRO took in €20.7m in 2011, thereby exceeding the receipts figure of €18m in the 2011 estimate. This is a slight increase of 2% on the 2010 income of €20.25m. The 2011 receipts were broken down under the following main headings:-

CRO Income	2010 outturn	2011 estimate
Late filing penalties	<i>€11.31m</i>	<i>€11.759m</i>
Submission fees	<i>€7.72m</i>	<i>€7.577m</i>
Enquiry charges & bulk sales	<i>€1.11m</i>	<i>€0.966m</i>
Registry of Friendly Societies	<i>€0.11m</i>	<i>€0.101m</i>

The increase in 2011 is mainly due to an increase in late penalties of about €0.458m over 2010.

E-Filing

CRO continues to drive e-filing as the preferred method of filing with the CRO. It has significant efficiency and costs benefits for presenters and CRO alike. However, paper-based filing is still permitted by CRO in instances where presenters opt not to e-file. Paper-based submissions are all scanned onto the register to ensure they are also available electronically for public access. In 2011, the number of searches of the CRO register completed online was over 98%.

The up-take of e-filing increased significantly in 2011. 230,000 submissions, that is 60% of all documents received were filed electronically compared to 57% in 2010. 73% of Annual Returns were e-filed which is a 7% increase on 2010.

During quarter 4 of 2011, the CRO piloted an online replacement of the CRODisk A1 new company incorporations form. The on-going plan to bring online the New Company Incorporations form A1 in CORE will be completed in early 2012.

CORE (Companies Online Registration Environment)

CORE allows presenters to view, in a managed environment, up-to-date information on companies for which they are a filing agent. It also allows customers to view their accounts' statements and transactions. Its popularity is increasing, receiving some 17,218 unique visitors per month in 2011.

Rules Database – Auto-registration

In the latter part of 2009 CRO extended its rules engine to the electronic B2 and B10 and also improved the frontloading of the forms. For example, only existing officers of a company can be selected to sign a form. In 2011, 42% of all B10's, 65% of B1s and 50% of B2s were automatically registered.

The effect of auto-registration is that the registration times are significantly improved and it helps the CRO cope with decreasing staff numbers in the Office.

Postal Incorporation Documents

Once a new company has been incorporated, it will continue to have filing obligations with the CRO on both annual and ad hoc bases. For example, if a director resigns and a new director is appointed, notice of these changes must be filed with the CRO. Volumes of this type of submission filed by companies are high with over 80,000 changes of director and company address filed with the CRO in 2011. In this regard, the enhanced use of e-filing and auto-registration by the CRO continues to be an important factor in keeping timescales within workable limits.

A backlog of allotment of shares filings persists at the CRO and it is planned to eliminate this backlog in quarters 1 and 2 of 2012 through a significant overhaul of in-house registration processes in this area.

Post Lodgements and Annual Returns

The Carlow office is the postal receipts centre for the CRO and its function is to receive and scan all documents received by post and to make them available to view by the registration sections in CRO's Dublin office and to the general public as quickly as possible.

Customer service is given high priority in the Section and every effort is made to ensure that phone queries are answered promptly, e-mail within 24 hours and correspondence within two weeks.

The targets in our Business Plan in relation to turnaround times and customer service were generally achieved and often exceeded in 2011.

The processing team continues to work to improve the quality of submissions being received onto

the Register and, during 2011, implemented new initiative such as a new B1 form with Auditor Registration Number (ARN); ROS signatures and PDF accounts in a very positive manner. Almost 73% of all annual returns were filed electronically in 2011.

Seasonal peaks

Traditionally, the CRO encounters seasonal loads, principally in October, November and January when the number of annual returns received rises from the normal monthly average of about 12,000 per month to an average of about 20,000 per month.

The Postal Lodgements Section continues to deal with seasonal peaks in a timely manner and backlogs are normally cleared within a week to ten days.

Enforcement

CRO's enforcement of statutory annual returns and filing obligations comprised involuntary strike-off, company prosecutions and the seeking of High Court orders against companies and their directors under section 371 of the Companies Act.

179 companies were prosecuted for failure to file annual returns of which 80 were convicted, yielding €44,000 in fines and €12,870 in costs. 7,938 companies were involuntarily struck off the register and 5,653 companies were struck off on a voluntary basis. 739 companies were restored to the register including 9 owner management companies in respect of which restorations were applied for after commencement in April 2011 of section 30 of the Multi-Unit Developments Act 2011.

In the course of 2011, CRO prepared papers for the initiation of section 371 High Court action against 36 companies of which 31 were sent to the Chief State Solicitor's Office. Section 371 notices issued to 531 companies and 1,227 directors of those same companies, in 2011.

The CRO continued to assist the Office of the Director of Corporate Enforcement (ODCE), by providing appropriate supporting certificates and affidavits, in its efforts to secure the disqualification/restriction of the directors of dissolved insolvent companies.

Mortgages and Charges

The redeployment within the CRO of additional staff to the Mortgages section in CRO early in 2011 helped address delays in processing mortgage documents. At the end of December 2011, mortgages documents were scanned and registered within the timeframes outlined in the CRO business plan. The registration of Satisfaction of Charges continues to be kept up-to-date.

Liquidations and Receiverships

The number of Liquidations initiated in 2011 continued to increase steadily to 2,464 with the number of receiverships increasing by 37% from 2010 to 533 in 2011 resulting in periodic backlogs in the processing of these submissions in 2011. CRO aims to be back within its processing timeframe targets by the end of first quarter of 2012. CRO also maintained an up-to-date register of disqualified

and restricted directors. Reports of companies in liquidation continued to be issued to the ODCE on a regular basis.

Limited Partnerships and External companies

Targets were achieved for the processing of all Limited Partnerships and External companies documents within 7 days of receipt.

Publications Section

Publications Section is charged with implementing a campaign plan which involves improving ease of access to, and customer awareness of, CRO Information Leaflets, CRO Forms and CRO Website.

The CRO publishes a regular electronic bulletin giving up-to-date information on the office's procedures, practices and services. There is no charge for the bulletin. Instructions on subscribing to the service are available from www.cro.ie

Overview of energy usage in 2011

S.I. 542 of 2009 requires public sector organisations to report annually on their energy usage and actions taken to reduce consumption.

The CRO is located in Parnell House, Dublin and O'Brien Road, Carlow. The CRO is the main energy user of Parnell House (67%) and shares the building along with a canteen, 3 meetings rooms, toilets and the reception area with Registry of Friendly Societies (RFS) and The Competition Authority. The CRO Carlow is the minor energy user of O'Brien Road (33%) and shares the building with the National Employment Rights Authority while also sharing canteen facilities, toilets and the reception area. The Energy Team in Parnell House were recognised by Optimising Power @ Work initiative in 2010 and the building was awarded runner-up in the Best Performing Building - Air Conditioned Buildings category.

In 2011, the CRO/RFS (Dublin & Carlow) consumed 756.15 MWh of energy, consisting of:

- 371.6MWh of electricity;
- 384.49MWh of fossil fuels, with natural gas being the only fossil fuel used.
- The CRO currently does not use any renewable fuels
- CO2 emissions: 277,597.56kg

This energy consumption can be broken down by location:

Dublin - 673.90MWh of energy consisting of:

- 319.67MWh of electricity;
- 354.23MWh of fossil fuels, with natural gas being the only fossil fuel used.

Carlow - 82.25MWh of energy consisting of:

- 51.99MWh of electricity:
- 30.26 MWh of fossil fuels, with natural gas being the only fossil fuel used.

Actions undertaken in 2011

- Over two hundred 4w "low energy" LED light bulbs & additional motion sensors fitted (Parnell House).
- Energy Awareness Presentations to staff (both locations).
- Energy saving related emails to staff reminding everyone to turn off PC monitors, printers etc. each evening (both locations).
- Monthly "No-Lift Days" (Parnell House).
- Out of hours energy Audits (Parnell House).
- Air Handling Unit operation hours significantly reduced (Parnell House).
- Heating timers regularly programmed in-line with current weather conditions (both locations).

It is not possible to give specific figures of energy saving for any of the above actions, but overall, energy savings of 15% were achieved in both locations when compared to 2010. The problem of gas consumption in Carlow was resolved in 2010 and produced a massive reduction of over 53% in 2011.

Actions planned for 2012

- Study to be carried out on the possible replacement of the single glazed windows in Parnell House.
- New Energy Awareness Posters to be displayed around the building (both locations).
- Presentations to staff (both locations).
- Installation of Building Management System (BMS) to monitor/control heating system in the building (both locations).
- Out of hours energy audits (both locations).

It is thought that carrying out Energy Awareness campaigns can lead to overall savings of between 5-10%. By using BMS systems this will allow both offices to manage energy usage remotely and efficiently and should show savings going forward.

WHAT WAS NEW IN 2011

Interconnection of Business Registers

On the 24 February 2011, the EU Commission adopted a proposal for a Directive on the interconnection of central, commercial and companies registers which will require all Member States to link up their registers electronically. This proposed Directive amends the cross-borders mergers Directive (200556/EC) and the Directive on branch disclosure (89/666/EEC) as well as Directive 2009/101/EC on the coordination of safeguards for the protection of interests of members and third parties. The key objectives of the Commission proposal are to facilitate cross-border access to official business information by defining a common minimum set of up-to-date company information to be available to third parties in all EU languages, to develop a framework for cross-border

cooperation between business registers and to ensure that business registers provide up-to-date information on the status of companies on their register to the business registers of the companies' foreign branches all across Europe. This legislative procedure to agree this Directive will be Co-decision between the Council and Parliament.

Unregistered Auditors

Acting as an auditor while not qualified to do so is an offence under the Companies Acts, prosecutable by the ODCE. In April 2011, CRO put in place a system designed to deter presenters from (a) filing an auditor's report signed by an un-registered auditor or (b) filing an auditor's report fraudulently signed with the name of a registered auditor. The system requires the presenter of an annual return with audited accounts to include the Auditor's Registration Number (ARN) on the B1 (annual return) form. An e-mail is then sent by the CRO to the owner of that ARN that their ARN has been used on the B1 form of a particular company.

During 2011, CRO staff

- actively implemented the new ARN system,
- liaised with presenters, companies and auditors in dealing with individual cases,
- worked to safeguard the integrity of the Register by ensuring, to the maximum extent possible, that annual returns with auditor reports signed by unregistered auditors were replaced by auditor reports signed by properly registered auditors,
- reported all unregistered auditor cases to the ODCE and assisted the ODCE in their role as prosecutor in such cases,
- regularly reported to management and accountancy representative bodies in relation to numbers of unregistered auditors detected and follow up action being taken.

Companies Bill

Minister for Jobs, Enterprise and Innovation, Mr. Richard Bruton TD, launched the Draft Companies Bill in May 2011. The proposed changes will revolutionise Irish company law and provide a state of the art company law code to users. The Companies Bill will consolidate the existing Irish Company Legislation dating from 1963 and introduce several company law reforms. The Bill is based on the General Scheme of Companies Consolidation and Reform Bill, which was prepared by the Company Law Review Group (CLRG).

The publication of this first of two volumes, which is divided into 15 Parts and focuses solely on the *private company limited by shares* - reflecting the CLRG's first recommendation in its First Report (31 December 2001), that "*The private company limited by shares... should be the primary focus of simplification*" - is a very significant step. The CRO has spoken in 2011 at a number of company law events regarding the anticipated implementation plans at the CRO in relation to relevant aspects of the Bill and will continue this work in 2012.

Multi-Unit Developments Act, 2011

The Multi-Unit Developments Act 2011 (MUDs Act') commenced in its entirety on April 1st 2011. Pursuant to section 30 of the MUDs Act, Form H1-OMC may now be utilised to apply to CRO to restore an Owners' Management Company operation as such, which has been dissolved within the last six years where the common areas or a part thereof of the multi-unit development in respect of which the company was incorporated was vested in the company immediately prior to the date of the company's dissolution.

An Owners' Management Company is defined in Section 1 of the Multi-Unit Developments Act 2011.

Main decentralisation to Carlow

In November 2011 the Government announced that the main decentralisation to Carlow is to be reviewed and a decision is expected in early 2012.

APPENDIX 1

DETAILED STATISTICS

Make up of Register and Activity on the Register

Make up of register of companies at end 2011

	2010	%	2011	%
Private Limited	160,349	86.40	159,536	86.15
Public Limited	1,717	0.92	1,799	0.97
Unlimited	3,927	2.12	4,126	2.23
Guarantee	15,649	8.43	15,643	8.45

Companies Dissolved	13,399	15,023	
Net Change	+1,273	+331	

Total number of new companies incorporated in 2011:	14,615
Total number of companies dissolved during 2011:	15,023
Total number of companies restored to the register in 2011:	739
Number of single member companies on register:	46,429

Restoration of Companies to the Register

Section 311(8) and section 311A of the Companies Act, 1963, and section 12B.(3) and section 12C of the Companies (Amendment) Act, 1982 provide for the restoration of a dissolved company to the Register of companies. A company may be restored to the Register by application to the:

- High Court before twenty years have elapsed from the date of dissolution;
- Circuit Court before twenty years have elapsed from the date of dissolution, where the applicant is a creditor;
- Registrar of Companies before twelve months have elapsed from the date of dissolution, where the application is made by or on behalf of the company.

Year	Companies Restored to the Register	Companies on the Register	%
2007	805	180,891	0.4
2008	834	184,306	0.5
2009	975	185,052	0.5
2010	659	185,608	0.35
2011	739	185,181	0.4

External Register

Companies on external register at 31 December 2011:

	2010	2011
Branches (EU)	1,472	1,512
Branches (Non-EU)	352	363
Place of business	2,121	2,178
Total on external register	3,945	4,053

Changes of Company Name

During 2011 a total of 1,905 company changes of name were approved. This figure includes companies which were directed to change name under Section 23 (2) of the Companies Act 1963. In 2010 there were 1,832 changes in company name and 1,926 in 2009.

Cross Border Mergers

3 companies were acquired using the Cross Border Merger legislation in 2011 while another 6 were absorbed. A further company acquisition has been applied for but not yet completed and 17 further absorptions were planned in 2011. 15 companies have been acquired under the legislation to date. 17 absorptions have been completed to date.

Year	Completed Acquisitions	Completed Absorptions
2008	1	2
2009	5	7
2010	6	5
2011	3	6

Societas Europaea

1 Societas Europaea was registered in 2011 having converted from a public limited company already on the register.

Year	IN	OUT
2008	1	0
2009	2	2
2010	4	0
2011	0	1

Investment Fund Migration

Sixteen companies were registered in the State by way of continuation following inward migration under section 256F Companies Act 1990 as inserted by Section 3(j) of the Companies (Miscellaneous Provisions) Act 2009 in 2011.

Year	Inward Migration
2010	1
2011	16

Permission To Omit “Limited”

In 2011 the following associations/companies were granted permission to omit “Limited” from their names:

ACTIVE CITIZEN

IRISH FIREPLACES LIMITED	16360
LAMIUS CONTRACTING LIMITED	407277
LEINSTER IMPORTING CO., LIMITED	10581
LINTOWN HALL MANAGEMENT COMPANY PHASE 1 LIMITED	345985
MICHAEL WALSH & SON LIMITED	31084
ODESSA CLUB AND RESTAURANT LIMITED	402542
POWER AND CHEMICAL PLANT LIMITED	25144
RAVEN TRANSPORT LIMITED	102770
UKASE SYSTEMS LIMITED	339095
YUMMY RESTAURANT LIMITED	438976

Registration of Prospectuses

Prospectuses

The Investment Funds, Companies and miscellaneous provisions Act 2005 and SI 324 /2005 which gave effect to the Prospectus Directive 2003/71/EC were enacted in June 2005. All prospectuses over €2,500,000 require prior approval by the Central Bank. Only those relating to Irish registered companies may then be presented to the CRO for registration.

Local offers defined as such by being less than €2,500,000 whether for Irish or foreign registered companies should be presented to the CRO for registration.

Domestic Prospectuses over €2,500,000

115 companies registered in the state submitted prospectuses during the year. Prospectuses were registered by the following companies:

ABSALON CREDIT FUND PUBLIC LIMITED COMPANY
