Introduction

The Registry of Friendly Societies (RFS) is a statutory office of the Department of Jobs, Enterprise and Innovation.

The Registry of Friendly Societies deals with three different entity types, namely Industrial and Provident Societies which in the main consist of co-operatives; Friendly Societies; and Trade Unions which include employee unions, employer associations and trade associations.

The principal legislation governing these entities is:

Statement of Strategy

The Mission Statement of the Registry of Friendly Societies is:

“To ensure that the various mutual entities registered at the Registry, which are subject to general regulation and supervision in varying degrees by the Registrar of Friendly Societies, comply with their statutory obligations and to maintain an up to date public record on those entities”.

This mission statement is accomplished through two core objectives, namely:

• The efficient and effective registration and general regulation of Industrial and Provident Societies, Friendly Societies and Trade Unions.

• The provision of an efficient and effective service to the public.
2013 Overview

At the end of 2013 there were 959 Industrial and Provident Societies, 48 Friendly Societies and 54 Trade Unions on the register, making for a combined total of 1061 registered entities. As such 2013 saw an overall increase of 12 in the number of societies/trade unions on the register compared to the end of 2012.

The charts below show the ratio of Industrial and Provident Societies, Friendly Societies and Trade Unions on the register at 31 December 2013, and over the years 2004 – 2013.
The fluctuation in number each year is as a result of new Acknowledgements of Registry, Restorations, Cancellations, Amalgamations, Transfer of Engagements, Dissolutions and Liquidations.

Details of the various registrations completed during 2013 are set out in the following pages of this report.

There are additional matters which a registered society or trade union must register or record in addition to sending annual returns and accounts to the Registrar, and these matters include:

- partial and complete rule amendments/alterations,
- changes of name and registered office,
- special resolutions.

Details of each of the above matters are also included in this report.

The RFS customer service targets regarding processing applications and making documents available to the public range from five to ten working days in respect of correctly completed applications, and are dependent on the nature of the application involved.

Since 2011, the RFS has carried out two targeted enforcement campaigns: the first in respect of Trade Unions and the second targeted towards Industrial and Provident Societies. The aim of these campaigns was to identify societies and unions overdue in their annual return filing obligations, then to seek their compliance in coming up-to-date on the register and, where this could not be achieved, ultimately cancelling the registration of those entities and removing them from the register. As a result of these targeted enforcement actions, many unions and societies brought their annual return filings up-to-date but the registration of 11 Trade Unions and 112 Industrial and Provident Societies was cancelled. The RFS continues to review compliance rates with a view to encouraging all societies to file on a timely basis and where necessary will initiate further targeted compliance and enforcement drives.

The RFS collaborates with the Companies Registration Office (CRO) with regard to making information available to the public on-line, and to this end general information and prescribed forms pertaining to industrial and provident societies, friendly societies, and trade unions are available on the CRO website at www.cro.ie. During 2012, technical work was completed to allow for statutorily filed RFS documents pertaining to Industrial and Provident Societies, including annual returns, to be made available on-line via the CRO/RFS website for purchase. This now allows members of the public to view and check the status of Industrial and Provident societies and purchase registered documents via the CRO website and has eliminated the need for in-person callers to the Office for this purpose. Payments are made by Credit/Debit card.

Access to public record files for inspection and/or purchase copies of registered documents is also still facilitated through the public enquiries counter in the CRO at Parnell House, 14 Parnell Square, Dublin 1 during the hours 9.30 to 13.00 and 14.15 to 16.30 Monday to Friday.

During 2013, fees received in the RFS amounted to €57,387.03, compared to €94,130.15 for 2012.
The decrease in revenue results from a reduction in the fees structure for Industrial and Provident Societies. A new fees order was signed by the Minister for Jobs, Enterprise and Innovation on 25th September 2012 which brought the new registration fees for Industrial and Provident Societies more in line with those of new companies. The fee for new registration was reduced from €507.90 to €200 and the fee to register an annual return was reduced from €60 to €40.

The RFS engaged throughout the year with stakeholders and the Department of Jobs, Enterprise and Innovation (Co-Operative Legislation Unit) in relation to matters of common interest and issues of policy concerning societies and trade unions. The Friendly Societies and Industrial and Provident Societies (Miscellaneous Provisions) Bill 2013 was published by the Government in 2013 and is being progressed through the Houses of the Oireachtas towards likely enactment in 2014. The RFS has input to and is examining the Bill with a view to working with stakeholders for efficient implementation of the new provisions in due course.

**Industrial and Provident Societies**

During the year under review the RFS registered 26 new societies and no societies were restored to the register.

A number of existing societies amended their rules either partially or completely during the year and a total of 15 societies were cancelled either at their own request, while none were cancelled by instrument of dissolution.

Following cancellation Societies lose all privileges granted under the Industrial and Provident Societies Act 1893 which includes the loss of limited liability.

**Friendly Societies**

During 2013, one new friendly society was registered and no society was restored to the register.

A number of societies had partial amendments to rules registered during the year.

**Trade Unions**

No new trade unions were registered in 2013. No trade union was cancelled at its own request or following dissolution.

A number of trade unions had a partial alteration of rules registered during the year.

**Electronic Register of Societies and Trade Unions**

Work completed on this project in 2012 and statutorily filed RFS documentation from 2010 onwards in respect of Industrial and Provident Societies is now available for inspection and purchase on the CRO/RFS website.
Overview of Energy – S.I. 542 of 2009

S.I. 542 of 2009 requires public sector organisations to report annually on their energy usage and actions taken to reduce consumption.

At the end of 2013 the RFS had a staffing complement of 4.4, (including Registrar) with certain staffing positions also having responsibilities and core functions in the CRO, including the Registrar of Friendly Societies who is also the Registrar of Companies. The RFS shares accommodation and many administration services including energy consumption with the CRO at its Parnell Square, Dublin location.

Details of energy usage, including actions taken in 2013 and actions planned in 2014 are as follows:

Overview of Energy Usage in 2013

The Companies Registration Office (CRO) incorporating the RFS is located in Parnell House, Dublin and O’Brien Road, Carlow. The CRO is the main energy user of Parnell House (67%) and shares the building along with a canteen, 3 meeting rooms, and the reception area with The Registry of Friendly Societies (RFS) and The Competition Authority. CRO Carlow is the minor energy user of O’Brien Road (45%) and shares the building with The National Employment Rights Authority while also sharing canteen facilities, and the reception area. CRO Carlow increased their share of floor-space of the O’Brien Road building by 12% in 2012.

The Energy Team in Parnell House was recognised by Optimising Power @ Work initiative in 2010 and the building was awarded runner-up in the Best Performing Building – Air Conditioned Buildings category. Parnell House currently holds a D2 energy rating, while O’Brien Road has a D1 rating.

In 2013, the CRO/RFS (Dublin & Carlow) consumed 880.88MWh of energy, consisting of:

355.71MWh of electricity;
525.17MWh of fossil fuels, with natural gas being the only fossil fuel used.

The CRO currently does not use any renewable fuels.
CO2 emissions: 283,195kg

This energy consumption can be broken down by location:

Dublin – 757.48MWh of energy consisting of:
• 289.93MWh of electricity;
• 467.55MWh of fossil fuels, with natural gas being the only fossil fuel used.

Carlow – 123.40MWh of energy consisting of:
• 65.78MWh of electricity;
• 57.62MWh of fossil fuels, with natural gas being the only fossil fuel used.
Actions Undertaken in 2013

• Energy Saving related emails to staff reminding everyone to turn off PC monitors, printers etc. each evening (both locations).
• Monthly ‘No-Lift Days’ (Parnell House).
• Out of Hours energy Audits (Parnell House).
• Air Handling Unit operating hours monitored continuously (Parnell House).
• Heating timers regularly programmed in line with current weather conditions (both locations).

It is not possible to give specific figures of energy saving for all of the above actions. CRO Dublin had a decrease of 2.6% in electricity usage in 2013 compared to 2012, fossil fuel (gas) usage in both locations rose by a total of 26.4%. Overall energy usage increased by 12.4% and CO2 emissions increased by 0.66% compared to 2012.

Actions Planned for 2014

• New Energy Awareness Posters to be displayed around the building (both locations).
• Presentations to staff (both locations).
• Installation of BMS System to monitor/control heating system in the building (Dublin).
• Out of Hours energy Audits (both locations).
• Monthly ‘No-Lift Days’.

It is thought that carrying out Energy Awareness campaigns can lead to overall savings of between 5-10%. By using BMS systems this will allow both offices to manage energy usage remotely and efficiently and should show savings going forward.

During 2013 the following persons were authorised pursuant to the Friendly Societies Acts to exercise and perform the powers, functions and duties of the Registry of Friendly Societies:
